

WEST SUSSEX COUNTY COUNCIL CONSULTATION

TO:	Horsham District Council FAO: Jason Hawkes
FROM:	WSCC - Highways Authority
DATE:	12 October 2020
LOCATION:	West of Ifield
SUBJECT:	EIA/20/0004 EIA screening.
DATE OF SITE VISIT:	n/a
RECOMMENDATION:	Advice
S106 CONTRIBUTION TOTAL:	n/a

WSCC Highways have no comments to make on the methodology within the EIA Scoping. As set out in the Scoping, separate discussions are progressing with WSCC regarding the assessment of transport related matters with these to be presented as part of a Transport Assessment. These discussions are on-going. It's understood that the TA will then feed into the EIA.

Various transport guidance documents are listed on page 144. LTN 1/20 should be added to these.

The only other comment at this stage would be in respects of the committed developments. As an observation both Kilnwood Vale (DC/10/1612) and the redevelopment of the former Novartis site (DC/18/2687) are missing from the list within appendix B.
